

## LYNGSOE LIBRARY MATE™ 2100 EXTERIOR KIOSK

### THE ROBUST AND STYLISH EXTERIOR SELF-RETURN KIOSK

#### FOR ALL KINDS OF WEATHER

Designed with style and functionality, Lyngsoe Library Mate™ 2100 is built to endure all kinds of weather conditions. The steel and aluminum front and high quality touch screen have been carefully selected for added robustness.

#### EXTENDED SERVICE HOURS – 24/7/365

Choosing the Library Mate 2100 allows you to extend the self-service return option for patrons to 24 hours a day all year round. Placing additional return options at for example busy trains stations.

#### PROTECTION OF LM2100 AND LIBRARY

The automatic hatch door protects the interior of the kiosk and library against rough weather conditions, and receiving unauthorized objects through the hatch. The hatch door can be programmed to only activate when the RFID reader detects authorized material.

### TOUCH SCREEN WITH FLEXIBLE OPTIONS

The touch screen offers multi language functionality, guiding the patrons confidently through the return process. Additional options include printed receipts with a choice of language and text.

#### BARRIER FREE PATRON ACCESS

As a special option in the newest Library Mate software (v3.30 and newer), you can offer special barrier free functionalities by means of specially designed easy-to read fonts and voice guidance. Additionally, color LED lights (green/red) located near the hatch door will give clear indications what the patrons need to do to make the return process go smoothly.

#### BENEFITS

- Patrons can return media at their convenience
- Robust design for all climates
- Unattended return of materials
- Eliminates repetitive staff tasks
- RFID/barcode options
- Can be integrated into Lyngsoe Sort Mate™
